MTWTU AND ILO JOINT SEMINAR IN ODESSA

A three days training on strengthening HIV workplace policies and programmes for maritime sector workers organized by the Marine Transport Workers' Trade Union of Ukraine and International Labor Organization was held in Odessa in November 2018.

The sessions were moderated by doctor Afsar Syed Mohammad, Senior Technical Specialist, ILO AIDS, who had flown from Geneva where the ILO head office is situated.

Such training is vital due to the sad statistics which indicate Ukraine as one of the few countries that shows a regular increase in new accidents of HIV infection. Also, the transport industry is one of the most numerous in the world and, at the same time, the most vulnerable in the context of various infections, not only HIV.

The training was attended by dear experts:

of Ukraine, Larysa Savchuk, the ILO National Project Coordinator on HIV, and others. This is not the first training regarding the HIV topic. The cooperation between the MTWTU and ILO was established in 2016, and since that time there were held a number of events and projects, some of which were also organized with the support of the ITF.
